Introduction

Benshaw offers a complete range of open chassis, protected chassis and packaged low voltage soft starters ... each designed to meet or exceed specific application requirements.

Our standard duty soft starters (CSXi Series) are ideal for a wide range of basic soft start applications. Advanced models provide "Smart Card" flexibility and added protection for standard and heavy duty (EMX4 Series) applications, and our MX2- and MX3-based starters (RB2 and RB3 Series) are well suited for use in a wide range of severe duty applications.

Benshaw CSXi Series Low Voltage Protected Chassis Soft Starters are compact, easy-to-use soft starters with built-in motor protection. CSXi Series soft starters provide greater control for starting and stopping of three phase motors, and, at only 6.5 inches (165mm) deep, are easy to mount in shallow enclosures.

Benshaw EMX4 Series Low Voltage Protected Chassis Soft Starters make it easy to access the right information ... right when you need it. EMX4 Series starters include a comprehensive graphical display, quick setup menus and comprehensive starter/motor/system protection functions, complete with alarms to alert you to any potential issues. For critical must-run applications, Power Through and Emergency Run functions provide the ability to keep running even if you lose one phase.

The **Benshaw RB2 Series** Open Chassis Soft Starter is a compact, simple to use soft starter with built-in motor protection, providing greater control in starting and stopping of three phase motors. The unit's integral bypass contactor reduces the watt loss of the soft starter, allowing these starters to be mounted in non-vented enclosures.

Benshaw RB3 Series Open Chassis Soft Starters feature Benshaw's patented MX3 technology, providing advanced motor control and protection with adjustable overload settings and available RTD monitoring ... eliminating the need for a third party motor protection relay.

BENSHAW LINE OF SOFT STARTERS

Guaranteed ... for three full years.

Only Benshaw has a three year guarantee.

Every Benshaw solid state starter is guaranteed for three full years. Other manufacturers limit their warranties to just one year. But at Benshaw, we believe that, because we build them better, we can guarantee them longer.
