FULL VOLTAGE ACROSS-THE-LINE STARTERS

BASIC ATL STARTER

Benshaw Basic Medium Voltage Across-The-Line (ATL) Starters are full voltage controllers for three phase induction motors. All ATL starters from Benshaw are supplied in a free-standing enclosure, with NEMA 12 and NEMA 3R configurations available to suit your application requirements.

Benshaw's compact, flexible, full voltage starters can be customized to support reversing, multiple motor, combination and non-combination, induction, synchronous, wound rotor, mining duty (skid mounted), and other motor control requirements.

KEY FEATURES

The basic medium voltage combination ATL starter includes:

- NEMA 12 or 3R enclosure
- Cable entry top
- Cable exit bottom
- Disconnect Switch
 - Load break/fault make
 - 5kV Class "R" rated fuses
 - Current limiting
 - Grounding bar
 - Viewing window
- Withstand rating: 50kA
- 60kV BIL rating
- Vacuum motor starting contactor
- Start/stop push buttons
- Electronic Overload protection
 - Class 10-30 adjustable
 - 1 NO, 1 NC trip contact
 - "Trip-Free" design
 - Phase imbalance protection
 - Phase reversal protection
 - Phase loss protection
 - Test function/trip indication
 - Fault indication

FULL VOLTAGE ACROSS-THE-LINE STARTERS

GENIUS ATL STARTER

Benshaw “Genius” Medium Voltage Across-The-Line (ATL) Starters are full voltage controllers for three- phase induction motors. Starters include the Benshaw’s NX controller for advanced motor protection, metering, diagnostics and communication.

Combination “Genius” starters are supplied in a free-standing enclosure. Enclosures are available in NEMA 12 and NEMA 3R configurations. Enclosures consists of two compartments. The medium voltage section is located in the main body of the enclosure and the low voltage section containing the control logic is located behind the door in an isolated compartment. Door mounted keypad is included.

Standard combination “Genius” starters are supplied with a load break/fault make disconnect isolation switch, Class “R” motor current limiting fuses, vacuum motor starting contactor and the NX controller and display.

KEY FEATURES

The Genius medium voltage combination ATL starter includes:

- NEMA 12 or 3R enclosure
- Cable entry top
- Cable exit bottom
- Disconnect Switch
 - Load break/fault make
 - 5kV Class “R” rated fuses
 - Current limiting
 - Grounding bar
 - Viewing window
- Withstand Rating: 50kA
- 60kV BIL rating
- Vacuum motor starting contactor
- Genius programmable keypad with Next Gen (NX) controller
- Start/stop push buttons
- Featured items via Next Gen (NX) Keypad
 - Next Gen (NX) overload protection
 - Phase imbalance protection
 - Phase reversal protection
 - Phase loss protection
 - Test function/trip indication
 - Fault indication

“Genius” ATL Starter

“A generational change in processor speed, protection/monitoring functionality and communication capabilities”

"It's Genius"

NEXT GEN CONTROL "GENIUS" APP

It's Genius!

Start Here is a powerful, user-friendly starter programming and troubleshooting app developed by Benshaw's engineering team for use on both iOS (App Store) and Android (Google Play) powered mobile devices. The Start Here app was developed to the latest in cybersecurity protocol, giving you peace of mind when connecting your mobile device to the starter.

The powerful Start Here app connects to the Next Generation NX controller through Bluetooth Low Energy (BLE), where you're able to update to the latest software through the cloud, update parameters, view event logs, download event and parameter data, and contact service support. Full starter troubleshooting and programming capabilities from your phone – now that's genius!

FULL VOLTAGE ACROSS-THE-LINE STARTERS

COMPACT, BASIC 20" WIDE ATL STARTER

Benshaw Basic 20" Wide Medium Voltage Across-The-Line (ATL) Starters are full voltage motor controllers designed for those installations where space limitations call for a smaller enclosure footprint.

KEY FEATURES

The 20" wide medium voltage combination ATL starter includes:

- NEMA 12 or 3R enclosure
- Cable entry top
- Cable exit bottom
- 600A Load Break Disconnect Switch
 - 5kV Class "R" rated fuses
 - Current limiting
 - Grounding bar
 - Viewing window
- Withstand Rating: 50kA
- 60kV BIL rating
- Vacuum motor starting contactor
- Start/stop push buttons
- Power fuses sized according to motor or load
- Isolated 120V control section
- "SPE" overload protection
 - Class 10-30 adjustable
 - 1 NO, 1 NC trip contact
 - "Trip-Free" design
 - Phase imbalance protection
 - Phase reversal protection
 - Phase loss protection
 - Test function/trip indication
 - Fault indication
- Optional extendable horizontal bus (800A, 1200A, 1600A or 2000A ratings available)

FULL VOLTAGE ACROSS-THE-LINE STARTERS

COMPACT, “GENIUS” 20” WIDE ATL STARTER

Benshaw “Genius” 20” Wide Medium Voltage Across-The-Line (ATL) starters are full voltage motor controllers designed for those installations where space limitations call for a smaller enclosure footprint.

Includes Benshaw’s Next Gen (NX) controller for advanced motor protection, metering, diagnostics and communication. See page 7 for details.

KEY FEATURES

The “Genius” medium voltage combination ATL starter includes:

- NEMA 12 or 3R enclosure
- Cable entry top
- Cable exit bottom
- Disconnect Switch
 - Load break/fault make
 - 5kV Class “R” rated fuses
 - Current limiting
 - Grounding bar
 - Viewing window
- Withstand Rating: 50kA
- 60kV BIL rating
- Vacuum motor starting contactor
- “Genius” programmable keypad with Next Gen (NX) controller
- Start/stop push buttons
- Featured items via Next Gen (NX) Keypad
 - Next Gen (NX) overload protection
 - Phase imbalance protection
 - Phase reversal protection
 - Phase loss protection
 - Test function/trip indication

FULL VOLTAGE ACROSS-THE-LINE STARTERS

DUAL-HIGH MEDIUM VOLTAGE ATL STARTERS

The Benshaw medium voltage full voltage non reversing starter configuration is also available in a two high design. The two high design in a 92.5"H x 36"W x 36"D enclosure can provide individual motor control and protection of applications up to 333 Amps.

In each section, you will have a 400amp rated fault make load break disconnect switch, R rated motor fuses and a 400amp rated vacuum bottle contactor. Each section will have a separate 120V control section to house your choice of the Benshaw Next Gen (NX) control card or a third party motor protection relay.

The Benshaw dual high section shares the same horizontal bus design of all Benshaw MV products which allows for seamless integration into a complete solution.

These units are fully customizable to meeting requirements of you application.

Dual-High MV ATL Starter

KEY ADVANTAGES

- Compact footprint - use for standalone, back-to-back and MCC/lineup applications
- Rugged, welded enclosure with chain drive flange handle mechanism

OPTIONAL

- Benshaw's advanced, digital Next Gen (NX) control and protection
- 50 KAIC (2600 or 4800 VAC) short circuit fault rated
- 45kV BIL
- Built-in self test features
- NEMA 1, UL 347 listed
- Bottom entrance standard
- Top entrance requires a side hat 20" or MLO

MVDISC LOAD BREAK INTERRUPTER SWITCH

MVDISC

Benshaw's free standing medium voltage load break interrupter switch is the latest design in medium voltage high current switching equipment for a wide range of applications. The fused interrupter switch provides an economical means of disconnect and short circuit protection of medium voltage loads such as transformers, single circuit or multi-circuit systems.

The switch is provided in a NEMA rated enclosure configured for use as a standalone unit or in an equipment line-up (MCC).

KEY ADVANTAGES

- Bolts directly to Benshaw MCC line-up or starter
- UL labeled up to 4800 volts
